2010 Show Facts

The First Oman Lab Expo showcased around 50 exhibitors from different countries presented their products and innovation in the fields of scientific laboratory analytical biotechnology educational

Exhibitors from USA, U.K, Germany, Singapore, France and UAE and Oman, there were also a strong presents from different ministries exhibiting their lab services.

The aim of the exhibition was to provide a platform for business development, marketing, and create way to open new avenues for transfer of technologies to the motivated entrepreneurs and scientific fraternity.

Exhibitors expressed delight at their participation with 90 percent achieved the primary purpose of participation, of promoting new instruments and services, and 30 percent finding local distributors or securing orders during the show. The Show also witnessed lunch of Mobile Lab for Ministry of Education.

Total 3000 visitors and delegates converged into the show and conference. The exhibitors were very pleased with the quality and number of visitors. They claimed to have totally or partially achieved the purpose of their visit of either seeking new instruments or placing orders
